Transform your story

HCI

— COLLEGE —

“Push yourself,
because no one else
is going to do it for
you.”

– Unknown

“The secret of
change is to
focus all of
your energy
not on fighting
the old but
building the
new.

-Socrates

COVID 19
CORONAVIRUS DISEASE

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Avoid touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Stay home when you are sick, except to get medical care.
- Wash your hands often with soap and water for at least 20 seconds.

FOR MORE HCI COLLEGE UPDATES

Plan your time

It helps to have some plans in motion so you can make the most of your study time.

- **Set alarms** – Set alarms as study plan reminder. A regular reminder keeps you honest and your plans on track.
- **Use a wall planner** – Stick a calendar or wall planner up so you can see it whenever you're studying. Mark it up with important dates, like exams and assignment due dates. Use it to block out your regular study timetable too.
- **Make to-do lists** – Lists break tasks down into manageable chunks. At the start of the week, make a list of the things that you need to have done by the end of the week. Make a to-do list at the start of each study session, so that you're clear about what you need to be doing with your time.
- **Set time limits** – Before you start your study session, have a look at your to-do list and give yourself a set time to spend on each task. If you don't get something done in the set time, consider whether it's the best use of your time to keep going with it, or to start working on something else.

Discover your learning style

Most of us have a preferred way of learning. Get to know the learning style you're most comfortable with and study in the ways you learn best.

Note that these styles are just a way to think about different studying techniques – they're not hard and fast rules that say you should only study in one way. Try each of these out and see which way(s) you prefer.

- **Auditory learners** prefer to learn by listening. Try reading your notes aloud and discussing them with other people. You might like to record key points and play them back.
- **Visual learners** prefer to learn by seeing. Try using colors in your notes and draw diagrams to help represent key points. You could try to remember some ideas as images.
- **Tactile/kinesthetic learners** prefer to learn by doing. Try using techniques like role-playing or building models to revise key points.

Review and revise

At least once a week, you should go back over the things you've studied in class. Thinking things over can help you to understand the concepts and help you remember when you need them the most.

- **Quiz** – Get a friend or family member to quiz you on key concepts. Offer to help your friends with their work, too. Quizzes are great ways to get confident about what you know and find out what you still need to learn.
- **Make your own study materials** – Think up some practice exam questions or create your own flash cards to help you study. This way you learn it all twice: once when you make the study materials and once when you use them to revise.

Due to recent information regarding COVID-19 in Florida, HCI College has extended online classes thru July 27, 2020. Prior notices regarding opening on July 6, 2020 for labs and clinicals are on hold at this time. Students attending labs with prior approval from your program directors are welcome with continued compliance to PPE and social distancing requirements. NEW STUDENTS beginning their degree program on July 6, 2020 AND ALL RETURNING STUDENTS should be in regular contact with their campus' admissions, financial aid, academics, and registrar offices to acclimate (or continue) in the online environment until further notice.

We will continue to monitor and adhere to local and federal law as it pertains to the safety and wellbeing of our students, faculty, and staff. As always, we appreciate your patience and cooperation, and we look forward to having all of you back on campus soon!

Best regards,

Dr. Arlette Petersson

Vice President of Academic and Regulatory Affairs

HCI College

Brendan Bivin – EMT Graduate

We are so proud of you, Brendan! He graduated April 25, 2020

Despite the Covid-19 pandemic, he persevered through the challenge of completing the program online. He kept his goal in mind to have growth within his security field at IBIS. Brendan's responsibilities are to aid in all calls and provide medical care, if needed.

When he was asked by his Career Services advisor, Jennifer pike, "how did HCI College help you transform your story?" He stated, "HCI helped me build the confidence I needed to help people with quick thinking and progress in my work life."

See our website for further information www.HCI.edu

We now have on-demand tutoring 24/7 in all your online classes. When you log into courses.hci.edu each of your classes will now have a link to tutor.com that will help you in your studies with math, science, and English.

Do you wish you had access to personalized help with your assignments *wherever, whenever* you needed it? We now offer our students free access to online tutoring! Tutors can help you work through assignments, prepare for tests and provide you with valuable study resources.

Tutors are available on-demand 24/7 for your convenience. Yes, even at 2:00am. To get connected for a live session, go to the Tutor.com link within your course. We hope you take advantage of this beneficial resource!

You have a lot on your plate.
We can help.

Students have **24/7 access to free online tutoring**, so you can get your assignments done and get back to your life.

Bri Dowis – Admissions Representative

My name is Bri Dowis. I am from East Tennessee, and I graduated in May 2019 with a Bachelor of Science Degree in Youth Athletics & Recreational Management from Carson-Newman University. I'm a big fan of pineapple on pizza and I am obsessed with being outdoors. The most interesting thing I have ever done is take two weeks off, travel to Nepal, and trek to the basecamp of Mt. Everest! I love working in Higher Education. I'm super excited to be working with HCI College to help students achieve their career goals!

Feel free to reach out to me any time @ Bridowis@hci.edu or 561-631-9194
